

# Gold Star Powders

## Siam Casting Powders Ltd.

SCP is a joint venture between Gold Star Powders UK, and our Thai partners, to manufacture Investment Powders in Thailand. All production development and formulation is controlled by Gold Star Powders UK. Siam Casting Powders supplies the finest-quality Investment Powders and materials for the local casting industries, utilising High Grade unmineralised Cristobalite, supplied by Gold Star's in-house Calcining and Milling Facility in Derbyshire, England.

SCP offers a technical consultancy service throughout Thailand to help improve casting quality and factory efficiency. Please contact SCP for more details.

For over 2500 years, Thailand has been a stronghold of Buddhism. The Buddha's teachings (Dharma) colour almost every aspect of life within the kingdom.

The Phi Phi Islands in Phuket are widely considered to be among the most beautiful places in the world, and hence are also the prime attraction of Krabi. The Phi Phi Islands is a chain of six islands; the second largest among them is the Phi Phi Le Island. Phi Phi Le is also known as James Bond Island, Phuket, named after the 007 James Bond film - 'The Man with the Golden Gun' (1974).
